FRENCH AND AMERICANS TAKE OFFENSIVE ON 25 MILE FRONT

GERMAN LINE IS SHATTERED OVER BIG FRONT AND THOUSANDS OF PRISONERS MANY GUNS AND MATERIAL ARE TAKEN

SUDDEN BLOW ON WEST OF MARNE SALIENT EARLY THIS MORNING TAKES HUNS BY SURPRISE AND FRANCO-AMERICAN FORCES ADVANCE TWO TO FOUR MILES OVER A TWENTY-FIVE MILE FRONT AND CONTINUE TO PRESS FORWARD.

AMERICANS GO OVER THE TOP WITHOUT ARTILLERY PREPARATION FOR BIG BLOW AND CARRY EVERYTHING BEFORE THEM

EIGHTEEN GUNS TAKEN IN ONE TOWN WHILE AMOUNT OF BOOTY CAPTURED CONTINUES TO GROW—TERRIFIC SMASH OF GENERAL FOCH EXPECTED TO WIPE OUT MARNE SALIENT WITH DISASTROUS RESULTS TO THE HUNS.

FRENCH TAKE THOUSANDS OF HUNS

LONDON, JULY 18.—(Associated Press Cable)—The French have captured several thousand prisoners and about twenty guns.

The French have gained from 2 to 4 miles everywhere on the 25-mile front of their offensive today between the Aisne and Marne, according to reports reaching London this afternoon.

AMERICANS TAKE ALL OBJECTIVES

WITH THE AMERICAN ARMY IN FRANCE, JULY 18.—(Associated Press Cable)—American troops in large numbers launched, in co-operation with the French, a powerful offensive on the line to the north of Chateau Thierry this morning. The Americans passed beyond nearly all their objectives including the Paris-Soissons road. The enemy was taken completely by surprise all along the line. Numerous tanks participated in the offensive.

The American infantry went into the attack without previous artillery preparation. In their advance beyond the rolling barriade they captured many guns, machine guns, prisoners, equipment and material. The town of Soissons is now well within the range of American guns.

The Germans in most places offered feeble resistance, but here and there they put up a stubborn fight which the American shock units quickly overcame at the point of bayonet and at the muzzle of their weapons.

As the whole German left flank is menaced the enemy must withdraw his troops from the Marne front or risk their being caught where they are. This means that the finishing blow has been administered to his dying offensive.

AMERICANS SHATTER COUNTER BLOWS

WITH THE AMERICAN ARMY IN FRANCE, JULY 18.—(Associated Press Cable)—Hastily organized counter attacks against the Americans developed here and there, but all were broken up and our troops continued to advance. In one town alone on the southern part of the front under attack the Franco-American forces captured 18 guns.

AMERICANS TAKE MANY PRISONERS

WASHINGTON, JULY 18.—(Associated Press Dispatch)—Official advices from General Pershing said American troops had taken the offensive with great dash and gallantry and were still advancing. Secretary Baker announced this afternoon. Formal objectives in the Givry and Torcy sectors were reached in about two hours of hard fighting.

The troops on this part of the front did equally as well as those on the front further north, taking quantities of material and prisoners, who continue streaming back.

FRENCH LAUNCH COUNTER ATTACK

PARIS, JULY 18.—(Associated Press cable)—The French this morning delivered an attack along the line from the River Aisne as far south as the region of Belleau, a front of about 25 miles, and made progress at certain points of between a mile and a half and two miles, the war office announced today. The situation on the Marne and Champagne fronts is unchanged.

(By The War Editor of The Associated Press)

General Foch, the allied commander-in-chief has taken the aggressive

AMERICANS ENTERTAINING THEIR FRENCH COMRADES

United States Marines entertaining their French comrades at mess in a trench dugout.

on an important scale, attacking this morning on a 25-mile front between the Aisne and the Marne, the westerly side of the German Marne salient.

The attack appears to be a significant counter stroke to the German drive along the Marne-Rheims-Champagne front, as from various sources come reports that the battle is progressing favorably to the allied forces which, presumably includes American troops.

Few details of the battle are available, the main fact officially stated being that at various points along this front progress of from a mile and a half to two miles was made and that prisoners have been taken.

The distance from the Aisne to the present battle front south of the Marne is about 25 miles. Behind the allied lines is the forest of Villers-Cotterets, with a network of strategic wagon roads and three railway lines. In front of them there is an important railway line running southward from Soissons to Chateau Thierry, presumably used as a supply artery for a large portion of the enemy troops along the Marne river. This railway was about four miles from the allied front when the attack was started today.

If the attack of the allies is what it appears to be it is a serious threat to the whole German positions south of the Aisne river.

It might, if successful, bring about a German retirement from the whole Soissons, Marne and Rheims salient and potential results to the enemy in the loss of men, guns and material.

The part American troops are taking in the allied counter blow is as yet unknown. The lines mentioned in the official statement from Paris, however, includes a section of the positions held by the Americans in the neighborhood of Chateau Thierry.

General Pershing's men are known to be at Belleau, and they have been mentioned as far north as the town of Torcy which is on the south side of the Clignon river, above Belleau Wood.

According to unofficial reports today that the Germans have made some slight progress south of the Marne in the region north of St. Agnan to the southwest of Dormans the success apparently is only local.

What appears to be a more important success by the French is reported from the easternmost point of the front south of the Marne. The French are said to have recaptured here the town of Mont Volsin, the village of Chene-La-Reine, the important heights in the vicinity of three villages commanding the River Marne.

The Italian troops are fighting in the area between the Marne and Rheims, and are said to have recaptured the village of Clarizet, two miles northeast of Bligny.

Coincident with the allied attack south of the Aisne river the British have attacked southeast of Villers Bretonneux on the Amiens sector.

ARMY LISTS

By Associated Press Dispatch.

Washington, July 18.—The army casualty list today shows 14 killed in action; 10 died of wounds; 10 severely wounded. Total 57.

ENORMOUS EXPORTS OF FOOD STUFFS

Approximately \$1,400,000,000 Worth of Food Sent Allies by America

By Associated Press Dispatch.

Washington, July 18.—Food valued at approximately \$1,400,000,000 was sent to the allied countries from the United States during the fiscal year which ended June 30th, Food Administrator Hoover wrote President Wilson in a letter made public today reviewing the work of the Food Administration.

The shipments represent those made for the allied armies and civil populations, Belgian relief, Red Cross and the American military forces.

The figures indicate, Mr. Hoover told the President, the measure of co-operation of the American people to provide the allies with food supplies.

DRIVEN BACK OVER MARNE

General Pershing's Communique One of Great Encouragement

By Associated Press Dispatch.

Washington, July 18.—General Pershing's communique for yesterday reports that in the American sector on the Marne the enemy has been entirely driven from the south bank.

REPORTED MISSING PRISONER IN GERMANY

LIEUTENANT PAUL BAER

Lieutenant Paul F. Baer, of Ft. Wayne, Ind., the American aviator who was listed as missing in a May casualty list, is a prisoner in Germany. News to this effect was obtained through the International Red Cross in Switzerland. Baer was formerly a member of the French Flying Corps and has been decorated with the Croix de Guerre and Distinguished Service Cross.

AMERICAN WOUNDED A CHEERY LOT

Most of Wounded Are Quartered In Four or Five Metropolitan Hospitals In London

(By Associated Press Cable)

London, July 18.—The American soldiers who have arrived at London hospitals in the last few days are a cheerful and optimistic lot. They are grouped mostly in four or five large metropolitan hospitals and as far as possible have been put together in large wards where they can provide plenty of companionship for one another.

The Americans include both sick and wounded. The wounded are largely from the Fourth of July "show" which was staged by the Americans and Australians south of the Somme.

LT. ROOSEVELT MAY BE ALIVE

General Pershing Wires Ex-President That He Has Hope That Quentin Escaped Death

By Associated Press Dispatch.

New York, July 18.—Colonel Roosevelt, just before leaving the city for Saratoga, New York, to attend the Republican state convention today, received a cablegram from General Pershing in which the American commander expressed the hope that Lt. Quentin Roosevelt, the Colonel's son, reported killed in aero battle in France may have landed safely.

"GETTING" THE SUBS RAPIDLY

(Associated Press Cable)

London, July 18.—Within the past three months the number of German submarines destroyed has been greater than during any similar period since the beginning of the war.

Depth charges have played an important part in putting an end to the activities of the U-boats.

HOPE MIXED WITH FEAR IN GERMANY

Latest Information States Huns Hope for Victory But Fear Defeat

(Associated Press Cable)

Geneva, Switzerland, July 18.—The Newspaper, Democriteen, which is usually well informed upon German affairs, declares that the latest information from across the Rhine shows mixed feelings in Germany regarding the new offensive.

While there is hope of victory and an early peace, there are also secret fears of failure which are only whispered, the advices assert.

HONOR ROLL

By Associated Press Dispatch.

Washington, July 18.—The Marine casualty list today contains 7 names. Killed in action, 3; died of wounds, 1; severely wounded, 3.

Ohio casualties: Private Chas. C. Hale, of McConnellville, and Private Alfred C. Walburn, of Wellston.

Administrator's SALE of Personal Property

On Monday, July 29th, beginning at 12 o'clock (noon) I will offer for sale at public auction at the residence of the late Henry Mark, 4 miles south of Washington C. H. and 1 mile east of Stanton, the personal property of the decedent, consisting of live stock, farm implements, grain, hay, etc.

J. E. Mark,
Administrator of the Estate of Henry Mark, Deceased.

Elks Association of Ohio, regarding the community building which the Grand Lodge of Elks is planning to erect in the community group at Camp Sherman. The two visitors were entertained to dinner by Mr. Smith.

The conference between Mr. Smith and the two men is a result of the prominent part Mr. Smith has played and continues to play in connection with the proposed community building of the Elks, which, it is understood, will cost \$50,000 and be in keeping with the bigness of the order.

As president of the Ohio Elks Association, Mr. Smith called the Ohio delegates together in Atlantic City during the recent national meeting of the Elks, and after the delegates had authorized him to proceed, he carried the project of building the structure before the Grand Lodge officers of the Elks, and after they had become interested, was referred to the Elks War Relief Commission, which is composed of a number of the most prominent Elks in the nation, headed by former governor John K. Tener, of Pennsylvania.

Before this commission Mr. Smith convinced the body that the need of such a project was pressing, and finally obtained their promise to visit Camp Sherman and investigate the project. As a result former governor Tener and Edward Rightor, of New Orleans, visited the camp, and were met by Mr. Smith and the other members of the Elks committee and after a thorough investigation the committee was authorized to obtain a site and proceed with the work of obtaining plans for a \$50,000 structure.

This work is now under way, and after the usual red tape in connection with camp work and such projects is unwound, it is expected that the building will, in due time, become a reality, and will have at least 100 rooms available in the community group.

YOUNG AVIATOR WINS LAURELS IN SERVICE

Friends of Mr. and Mrs. Charles Silcott and family in this city will read with interest of the distinction in military service which is being attained by the only son, Lieutenant Arthur E. Silcott, as told in the Ashland Independent Daily:

"Lieut. Arthur E. Silcott of the U. S. aviation corps is here the guest of his parents, Mr. and Mrs. Chas. E. Silcott, having arrived from Fort Worth, Texas. He is to report at Hoboken, N. J. next Monday and this doubtless means to sail for France immediately. Lieut. Silcott was one of the first to volunteer for service, enlisting about ten days after war was declared and this city is very proud of him. He has won rapid promotion and is wearing wings on his uniform the insignia of Reserve Military Aviator which is quite a distinction. Lieut. Silcott is the picture of health, is strong and ruddy, has worked very hard, but enjoys his work. He will doubtless be heard from in the activities abroad as he is brave and fearless. He assuredly takes with him the very best wishes of a host of admiring friends."

SIX COLORED MEN DEPART FOR CAMP

Six Fayette colored men, forming Fayette's unit of colored draftees to be sent to Camp Sherman this month, departed for camp Thursday morning, and were accompanied by Joseph Bealey, inducted by one of the Toledo draft boards.

The men left on the nine o'clock train for Camp Sherman to enter military service. They are: Park Alexander Hamilton, Raymond Sanders, Ed Arthur Smith, Chas. Edward Easton, John Rufus Cannon, Oscar Williams.

FAYETTE'S RECORD IN CHILD HEALTH

The Children's Bureau of the Department of Labor is made up of more than 100 child experts, physicians and social workers, who are studying and attempting to solve the child problem of America.

Before they can do the most effective work however it is necessary to know as far as possible the physical condition of American children.

The members of the Children's Bureau have decided that the best indications of a child's health are its weight and its measurements. For this reason they have asked the Woman's Committee of the Council of National Defense to have its Child Welfare Committee weigh and measure every child under six years of age in every county of America.

This is the first work of an extensive program which is to be carried out during the coming year. The Child Welfare Committee of Fayette County has been engaged in this work of weighing and measuring for the past two months and they are to be congratulated upon having done an excellent piece of war work.

Mrs. C. Graham Beckel, County Chairman of the committee has shown her self a splendid executive and a good business manager by the way in which she has conducted the work. But she could not have succeeded so well had it not been for her efficient sub-chairman and helpers throughout the county who so willingly and self-sacrificingly gave of their time and energy in order to do this patriotic service for their country.

This committee, by a house to house canvass found that in Fayette County there were 2353 children under six years of age. Each sub-chairman made up a complete list of children in her section and by holding meetings in school houses, town halls and other available places, she and her helpers weighed and measured 2040 of these children which is a remarkable record.

It is a fact worthy to be mentioned that when there was no available meeting place to which the mothers could bring their children, these faithful women put their scales and measuring apparatus into an automobile and drove from house to house. Too much credit can not be given to these patriotic women. Six of the chairmen secured every child on her list—Mrs. Herbert Chapman, Mrs. Walter McLean, Miss Agnes Kerrigan, Miss Ruby Fountaine, Mrs. George Fabb and Mrs. John Perrill. The other chairmen who helped in this great work are: Mrs. Ella Baldwin, Miss Bertha Larrimer, Mrs. Ora Allen, Mr. B. L. Sollars, Mrs. Ben Coffey, Mrs. John Browning, Miss Charity Stucky, Miss Zoe Colaw, Mrs. Herbert Cockerill, Mrs. Chas. Sauer, Mrs. Henry Brownell, Mrs. Chester Hall, Mrs. Phil Davis, Mrs. Howard McLean, Miss Lou Dunlap and Mrs. George Hitchcock.

The members of this committee wish to thank the mothers of Fayette Co. especially those living outside of town for their hearty co-operation in this work.

The following record of Fayette County children has been sent to the Children's Bureau of the Department of Labor at Washington, D. C. Complete census of children under six

Number weighed and measured	2040
Number of children registered	1454
Number of children not registered	586
Number of children average and above	1336
Number of children below average	704

Two of the above statistics are of special significance. We have 586 children in the county whose births are not registered in the county records. The war has brought out the necessity of birth registration as per haps no other factor ever has. Incomplete birth records show carelessness and neglect and often means

a gross injustice to the child in later years.

The number of children below average in our county is entirely too high. It means that 34.5 per cent of them are in need of some kind of medical advice.

It is recommended by public health experts that when the number of sub-normal children in any community is 400 or above, the services of at least one public health worker should be procured whose duty it should be to go into the homes of the community and teach the mothers the simple preventive and corrective medical aids and to demonstrate to her the proper methods of feeding and caring for her own children. Over 40 calls have come to the county chairman of the Child Welfare Committee within the past few weeks, from mothers who know that their children are not well, but who do not know what to do for them and who cannot afford a doctor.

These records have been compiled for the Department of Labor at Washington, D. C., but it is hoped that ever man and woman in the county will read them carefully and thoughtfully.

Fayette County has always been known as one which never lags behind in her duty. She is full of push and patriotism. She is thrifty and prosperous. She forges ahead in all the larger activities, but communities like individuals are apt sometimes to neglect the little things in their onward rush. The "little things" in Fayette County today seem to be our little children. While we are making investments in liberty bonds, war saving stamps, etc., why can we not as well make a small investment in human life?

THIEF IS BUSY ROBBING DENTISTS

Thieves have been busy robbing dentists' offices in surrounding towns recently, and local dentists are keeping an eye out for the nocturnal visitor who has been making many rich hauls stealing gold used for cap and filling work.

In Xenia the thieves obtained a large amount of gold last week. This week they robbed dental offices in Lancaster and Chillicothe.

In all the thieves obtained over \$500 worth of gold.

VISITORS NOT ALLOWED NEAR HUN PRISONERS

By Associated Press Dispatch.
Camp Sherman, Chillicothe, Ohio, July 18.—The one hundred German prisoners of war recently brought here are the center of interest at Camp Sherman, both for the men of the Eighty-Fourth Division and visitors.

The German prisoners are confined in a high stockade at the east end of the camp and are closely guarded. The stockade is built of high posts surrounded by barbed and charged wires. Sentries at all times keep a close guard. Visitors at the camp are not permitted within a quarter of a mile of the stockade. The Germans sleep and do their cooking and washing within the enclosure.

The enemy prisoners are being used by building roads about camp and for work in the camp reclamation department. Whenever they are taken outside the stockade they are closely guarded and no one is permitted near them.

A small building near the entrance of Camp Sherman, seldom noticed by either soldiers or visitors is one of the most important institutions of the army work here. The structure houses the camp reclamation department, under the supervision of Lieutenant U. A. Rollman.

Established late in January of this year and employing but a few men, all of whom are trained either in tailoring or shoe repairing, the department has saved the government more than \$175,000 within the short period it has been established. Here clothing and shoes of the enlisted personnel are repaired and made as good as new. Under the direction of Lieutenant Rollman, all available farm land in and about camp is placed under cultivation and the crops raised are distributed among the company messes.

One hundred and fourteen men are employed in the department at present. Every man listed is a specialist in some line of the work. The men start their work at home as each is ordered to present good clothing and shoes to his brother soldiers at all times. One day each week is set aside for general repair work within the department. The tailors go over the clothes of the shoe repair men and the shoe repair men fix the shoes of the tailors.

The approximate saving on garments only within the past four months have been \$140,000. In addition the department looks after waste paper and metals about camp. Since the department's conception manure from the camp's corrals has brought \$4,000.

The one hundred German war prisoners recently brought to camp, are under the reclamation department and are being used to good advantage at labor in camp.

Wanted—Girls at Larri-mer Laundry.

Saving Russia

As the true conditions in Russia become more generally known, public opinion seems to be growing in favor of a real allied intervention. The better class of Russia are insisting that the time has come when the wild uncontrollable masses are beginning to realize conditions and would welcome the sustaining hand of the nations which would save them from the slavery which the Huns have fastened upon them.

Under present conditions Russia is helpless—at the mercy of the Huns—who will be swift to seize the advantages which that vast storehouse offers.

For Japan alone to undertake the work of rehabilitating Russia, no matter how unselfish her intentions would be dangerous. The memory of the Japanese-Russian war is too vivid with the masses and the Russians are naturally antagonistic to the Japanese. With all the nations at war with the Huns acting in concert and the guarantee of the government at Washington that only the rehabilitation of Russia would be permitted, it does not seem likely that the threat of the Bolsheviks to deliver the nation as an open and a militant ally of Germany, need be feared.

Russia is in a deplorable condition and perhaps under ordinary conditions the Russian people should be, and would be allowed to work out their own problems, but now, under these extraordinary conditions the problem of Russia is the problem of the civilized world and we must aid Russia, it seems, in coming to a solution of her problems and that speedily.

The menace to Russia is the menace to the world. To save Russia now, quickly, is to save ourselves with less cost in life and treasure.

Inaction Of Officials

One of the most discouraging and one of the most exasperating conditions to the citizen who endeavors to obey the laws, is the feeble manner in which so many public officials go about the work of enforcing the laws.

The unfortunate thing about that condition is that with so many technicalities in the legal procedure, with so many faultily framed laws and ordinances, the dodging of officials usually succeed in making a clean get-away from taking needed action and the citizen is driven to protect himself or endure the ills which careless, or worse, fellow citizens heap upon him.

Unfortunately, our laws and ordinances are so framed that they are just about as easy to dodge as to enforce, providing officials are too indolent to aid the law-abiding citizens.

As a rule, too, it is the petty law-breakers who cause annoyance to officials. The good citizen goes about his business quietly and dignifiedly and tends his own affairs. He causes the officials but little trouble when they permit violations of the law to go unpunished. Hence he can be put off easily.

Maybe that's one reason why officials can find so many reasons for not acting when called upon.

Advertising

We, all of us, understand that there is vital need of conservation in everything—economy in all things save war expenditures and war preparation has become the chief rule governing every human activity and directing or controlling every human impulse.

One of the greatest, perhaps the greatest conservation endeavor, is that which has for its object the prevention of waste of the nation's man power and the nation's energy.

In the smaller circle of community life the merchants are able to call attention to the goods they have for sale, the prices, present opportunities and the prospects of the future—giving the buying public the facts—so that when men and women leave their work, whether it is in the fields or the factories, to purchase needed goods they know, from reading advertisements just what they want.

Hours of time formerly wasted in "looking around" and pricing goods here, there and everywhere is saved and the time spent more profitable. Not only that, but the merchants can carry on their business with less man power and less cost. Sensible advertising buys for the public and sells for the merchants.

Never has there been a time when the duty to advertise was more imperative than now. Advertising under present conditions is one of the greatest energy and time saving agencies. Always a good business proposition, advertising has become now almost a patriotic duty and certainly a business necessity.

Poetry For Today

TIED

It would seem good if I could get
 As tired as what I used to be
 When I'd sprawl out on the grass
 An' father would come out for me
 An' pick me up an' lay me down
 In mother's arms, all in a heap,
 An' say to her, "The little toad
 Is tired out an' fast asleep."

An' she would loose my buttons and
 An' she'd git my nightie clean an' white
 An' sort o' coax me into it,
 An' kiss men an' tell me good night
 An' lug me off upstairs to bed,
 An' stand an' look at me awhile,
 Then she would look at father, and
 The both of them would sort of smile.

Plum tired out with too much play,
 Too sleepy even to undress,
 And then a little snugglin' up,
 An' then a little tenderness;
 It would seem good if I could get
 As tired as what I used to be
 When I'd sprawl out, out on the grass
 An' father would come out for me.
 —Houston Post.

Weather Report

Washington, July 18.—Ohio—Fair Thursday, showers at night or Friday south portion, partly cloudy north.

West Virginia — Partly cloudy Thursday; Friday showers.

Western Pennsylvania — Fair Thursday; Friday partly cloudy.

Indiana — Partly cloudy north, showers; south portion Thursday Friday showers.

NEW PROCESS FOR MAKING STEEL TAKEN

Alien Property Custodian Takes Over Valuable Secret With Hun Steel Mills

By Associated Press Dispatch.

Washington, July 18.—Taking over by the American Government of the German owned Becker Steel Company of America with a plant at Charleston, W. Va., was announced today by Mitchell Palmer, alien property custodian.

With the company comes to American manufacturers, a secret process for the production of "high speed steel" heretofore held exclusively by the Germans.

The "high speed steel," the secret of which passes to American manufacturers is said to be highly valuable in the production of high power motors.

AMPLE WARNING TO AUTO MEN

(American Press)

Washington, July 18.—Enlargement of the war program, the consequent increasing demand for steel and existing shortage in the supply may result in further drastic curtailment of the so-called lesser essential industries.

The requirements of the war for the last six months of this year will be approximately 20,000,000 tons, the war industries board announced. The greatest output of a like period for the steel industry was 16,500,000 tons, the board stated.
 Open intimations of the proposed curtailment were made at a lively session of the war industries board with the automobile manufacturers who are engaged in the making of passenger or pleasure cars, whose output will be curtailed. The board called upon the manufacturers to submit within two weeks a sworn inventory of steel and steel products now on hand at their plants.

Men who participated in the conference said that it had been a heated one, in which the automobile manufacturers predicted a dire outcome unless Director of Steel Supply Replogle granted to the passenger car makers enough steel to enable them to liquidate their present inventories.

War industries board members replied that ample warning of the curtailment had been given and told the automobile men that the supply of the American forces in France was the first consideration. Some of the conferees said it was pointed out to the automobile men that when the first warning was given some manufacturers took heed and placed themselves on a war basis, devoting 90 per cent of their manufacturing capacity to war contracts. Those who face a shutdown from curtailment of steel.

It was stated, do so because they found passenger car contracts more profitable than war contracts.

When the conference was over it became evident that plain words had been spoken on both sides. Some of the conferees said the discussion had ranged even into the field of political effect of the war industries board's action.

WAR TAX MEASURE IN PREPARATION

(American Press)

Washington, July 18.—Chairman Kitchin of the house ways and means committee declared it was aimed to have the new war revenue bill in form for presentation to the house when congress reconvenes late in August after the series of three-day recesses. Statistics in regard to income and excess profits taxes, indicating to what extent those sources can be relied upon to furnish revenue, are not expected to be completed by the treasury department, however, until some time in August.

Suggestions which have been laid before the committee include proposals for consumption taxes. Members of the committee, however, are said to be loath to fix taxes directly upon the consumers of such staple articles as sugar, tea, coffee and salt, as has been suggested.

Social and Personal

The July meeting of the Woman's Missionary Society of the First Presbyterian church was of marked interest at the home of Mrs. George Sheets Wednesday afternoon, with the hostesses assisting Mrs. Sheets Mesdames J. M. Minter, Wm. Sprenger, A. C. Henkle, B. F. Davis, Chas. Sever, H. L. Hadley, Adam Kinzer, Jess Blackmore, Frank Mayer, Wm. Bryant, Charles McLean, Martin Hamm, Jennie Harvey, Chas. Fabb, Frank A. White and Miss Vera Veal.

Fifty women attended and, together with the inspiration of the meeting and its social features enjoyed Mrs. Sheet's new home, admiring its attractive arrangements, conveniences and handsome furnishings.

Bowls of zinnias, dahlias and nasturtiums were effectively placed throughout the rooms.

Mrs. Austin F. Hopkins, president, conducted the opening exercises and then turned the program over to the leader, Mrs. John Hicks.

Mrs. Frank M. Fullerton presented a most timely and comprehensive paper on "Results on the Home Field."

Mrs. Josephine Kerr gave interesting subject matter on "Results on the Foreign Field" and Mrs. Bella Ustick on "Our Special Workers."

A beautiful piano duet was rendered by Misses Maxine Kibler and Avonelle Timmons.

Mr. and Mrs. C. F. Bonham pleasantly entertained at an informal six o'clock dinner Wednesday evening, Captain H. D. Shankle of Camp Humphries, W. Va., Mrs. Shankle and daughter, Anna Louise, Mr. and Mrs. James Hartman, Mr. and Mrs. Ralph C. Browne and daughter Elizabeth Ann, of Cincinnati.

At the home of Mrs. Paul Hildebrand on East Temple street, the W. R. C. held a most enjoyable social session Wednesday afternoon, with Mesdames O. S. Tobin, George Hays, John Morris, Frances Bales, S. E. Irvin, Will Hetteshimer, Robert Bryson and Hildebrand as hostesses.

Instead of the regular Red Cross work the women brought their knitting and spent an afternoon in pleasurable sociability interspersed with piano music. The women of the neighborhood were additional guests.

Mr. R. F. Jamison and family motored to Lakeside, Thursday for a week's outing.

Mr. and Mrs. Charles Lough motored up from Greenfield to attend Wednesday night's band concert.

Mrs. Oli Boyer and daughter, Miss Lucile, Miss Corda McCafferty and Mrs. Mary S. Allen are visiting friends at Sedalia today.

Miss Hazel Flowers is home from Columbus for several weeks.

Mr. DeWitt Hull, of Jeffersonville, has accepted a position in the Craig Bros. department store, and will begin work Monday in the shoe department.

Mr. and Mrs. J. H. Hill and sons George and Marcus of London, were guests Wednesday of Mr. and Mrs. Walter Craig.

Mr. Orris McGinnis, who has been enjoying a short furlough with friends here, spent Wednesday in Springfield.

Mr. and Mrs. A. Earl Peterson (Pearl Parrott) arrived Wednesday evening from Cleveland to visit Mrs. Peterson's parents, Mr. and Mrs. Charles H. Parrott, for a few days. Mr. Peterson has enlisted in Engineers Corps under a special call for volunteers and leaves for camp some time next week.

Ewing Fichtner, James Kelley, Shirley Bostwick and Thurlow Kelly of Milledgeville motored to Camp Sherman, Wednesday evening.

Dr. and Mrs. J. C. Stover and son Alver Stover motored over from Lancaster, Wednesday evening to be the guests of Mrs. Stover's brother, Dr. Neil B. Jones and family. Dorothy Anne Jones, who has been their guest for the past two weeks accompanied them home.

Orris McGinnis, of the Railroad Artillery who has been here spending a few days with his aunt, Mrs. Catherine Bush, leaves Friday morning for Ft. Hancock, N. J. Mr. McGinnis enlisted in the Coast Artillery but was transferred some time ago to the Railroad Artillery at Ft. Hancock.

Mr. and Mrs. Herbert Chapman motored to Columbus, Wednesday.

Miss Mary Myers who has been visiting her sister, Mrs. Lester McCrea, left Wednesday for a few days visit in Lancaster, before returning to her home in Baltimore, Ohio.

Mr. N. S. Barnett, Jr., arrives from Shawnee Okla., this evening to visit his uncle, Mr. N. S. Barnett and family.

Mrs. E. F. Kinnear and mother, Mrs. Ellen Cissna, who have been spending the week at Cedar Hurst with Mrs. Earl Barnett have returned home.

Miss Agatha and Alice Rapp of Sabina were shopping visitors here today.

Otto Culbertson leaves Tuesday for Akron to join the Akron contingent, going to Camp Jackson, Columbia, S. C.

Mrs. N. W. Chaney arrived from Cincinnati Wednesday evening to be the guest of Mrs. Georgiana Glascock.

Mrs. O. E. Spurgeon (nee Ella Worley) arrived from Munice, Ind., Wednesday evening to visit her grandfather, Mr. Williams Craig and aunt, Mrs. Ella Courts.

Mr. and Mrs. Clifford Peddicord are receiving congratulations upon the birth of a daughter at their home on Dayton avenue, Wednesday evening.

Mr. H. C. Estberg has returned from Durant, Okla., where he spent the past month in the interest of the Durant Consumer's Light and Power Co., one of the W. A. Baehr properties.

Miss Olive Hillery is visiting her grand mother, Mrs. Eli Wilson in Greenfield, and aunt, Mrs. Charles Head, in Cynthiana.

Miss Marie Niseley has returned from a two weeks visit with her cousin, Mr. Roy Sollars in Chicago.

Mrs. Albert Glascock has been visiting the past two days in Columbus, the guest of Mrs. Otto Twitcheler and Mrs. C. E. Bell. Mr. and Mrs. Twitcheler recently moved from Chillicothe to Columbus, where Mr. Twitcheler holds a government position.

Lieutenant Leland Haines of the 301st Cavalry stationed at Presidio of Monterey, Cal., is home on a few days leave of absence.

Mr. and Mrs. Clarence Clawson, of Hamilton were guests of Mr. and Mrs. J. W. Townsley and daughters, Wednesday.

Mr. E. B. Hukill, of Columbus is a business visitor here today.

Lieut. C. L. Boyer of Camp Lewis, Wash., is spending a short furlough with his father, John W. Boyer and family at their home on Willard St.

Mr. and Mrs. Leo Katz and two daughters, of Columbus spent Thursday in this city enroute on a motoring trip from Chillicothe to their home in Columbus.

Dr. A. H. Harrop, of Albion, Michigan, is spending a few days the guest of his father, Mr. R. H. Harrop, and sister, Mrs. Glenn M. Pine.

A want ad will do it for you.

CAPTAIN CALDWELL SERIOUSLY GASED

Word was received here this morning from Capt. Don L. Caldwell, who was seriously gassed on June 6th Capt. Caldwell was injured in football several years ago and was operated on by Dr. Jones of Greenfield and is now suffering, supposedly from the effects of the gas, as it seems to affect the weakest spot, the old wound troubling him very much. He is still in the hospital.

OHIO NEWS

(American Press)

Suspect Arrested.

Napoleon, O., July 18.—Walter G. Pardonner, 60, near Ridgeville Corners, an alleged pro-German, was jailed here. He is thought to have incited a pro-German feeling while selling pictures in Henry, Deafance, Fulton and Williams counties.

To Work in Munition Plants. Toledo, July 18.—Several hundred business men have offered their services to the newly organized volunteer munition workers' association here. They will work four-hour shifts, after business hours, in munition plants, which require 1,000 extra men at once.

Absence Cause of Worry. Springfield, O., July 18.—Local relatives of W. H. Cook, formerly secretary of the state grocers' association, are worried over his absence from the city since Monday, after receiving word that his brother, Conductor Milton B. Cook, had been killed in a railroad accident near Adrian, Mich. His whereabouts are unknown.

Profiteering Alleged. Chillicothe, O., July 18.—According to a story printed by the Camp Sherman News, a weekly published by soldiers, charges of profiteering on the part of certain merchants here are being investigated by special government agents and it is intimated that some drastic action may be taken should the charges be substantiated after an investigation.

Miss Breyfogle Resigns. Columbus, July 18.—The resignation of Miss Caroline M. Breyfogle as dean of women of Ohio State university has been sent to the board of trustees of the university. Miss Breyfogle plans to devote her time to war work. She has been dean of women at the university since the position was created six years ago, coming here from Wellesley college, where she had been professor of Biblical literature for six years.

FARM NOTES

New Home Study Courses

"Clover Culture" and "Grasses" are the subjects of two new home study courses just issued by the Agricultural College Extension Service. Anyone may enroll in these courses with out cost. The course on clover culture consists of seven lessons. It aims to acquaint the student with the value of clovers in pastures, rotations, and all phases of general farming. The course includes a short history of the plant, a discussion of the different varieties, cultural method, uses, and methods of improvement. The course on "Grasses" also consists of seven lessons. Included in it is a treatment of root crops as forage.

Anyone desiring to enroll should apply to J. E. McClintock, supervisor of correspondence courses, the Ohio State University, Columbus, Ohio.

Arrange Now For Tiling Now is a good time to arrange for putting in tile. Everybody knows that wet land should be drained. Everybody feels sure that tiling pays. There is probably no one thing that could be done toward increasing the average yield of wheat in Ohio which would be more effective than tiling. Young plants do not have a fair chance on wet soils.

Waste No Sugar In Jellies On account of the sugar shortage, certainly no excess of sugar should be used in jellies. If these are made, the following proportions will be found successful:

For 1 cup current juice, use 1 cup sugar.

For 1 cup green grape juice, use 1 cup sugar.

For 1 cup red raspberry juice, use 1 cup sugar.

For 1 cup blackberry juice, use 1 cup sugar.

For 1 cup sour apple juice, use 1 cup sugar.

For 1 cup crabapple juice, use 3/4 cup sugar.

Too much sugar gives too soft a jelly. To little sugar gives a tough jelly. No amount of boiling will correct a failure due to wrong proportions of sugar. If the jelly fails to set, more juice which will add more pectin, may be added and a second cooking may correct the mistake. This, however, will not be as satisfactory a jelly as it would have been if correctly proportioned the first time.

The sugar is added hot to the juice after it has been boiling a few minutes. It is added hot so as not to cool down the temperature and thus prolong the cooking, and it is added after the boiling has continued for a few minutes, in order not to waste the sugar by frequent skimmings or by the chemical change resulting from long boiling with acid.

Save Your Seed

Home gardeners as well as truck growers who find seed of favored varieties difficult to secure or high in price will do well to save their own seed. The saving of seed from beans, peas, corn, peppers, okra, egg plant, squash, cucumbers, muskmelons, and water melons is very simple, the chief requirement being to select seed from good plants. Obtaining seed from tomato, radish, lettuce, cabbage, beets, and carrots, while not so simple, is not beyond the ability of any amateur gardener.—Agricultural Extension, O. S. U.

SUPPRESS PRESS OF ALL BELGIUM

(Associated Press Correspondence)

Havre, July 10.—The Germans not only have tried every imaginable method of controlling and subjugating the Belgian press, such as requisitioning all paper supplies from newspapers that would not do their bidding, but have now requisitioned the presses, linotypes and machinery of Le Patriote. The property thus seized, the Belgian authorities learn, has been sold to German papers.

TO CHRISTEN VESSEL

MRS. EVELYN THOMAS

Mrs. Evelyn Thomas, widow of Lieutenant Clarence Thomas, the first American naval officer to lose his life in the war, has been requested to christen a destroyer which will bear the name of her gallant husband.

band. Lieutenant Thomas was in charge of the naval guard aboard the tanker Vacuum, which was torpedoed off the Irish coast in April, 1917.

CLOSED FACTORIES FORM NEW UNION

By Associated Press Dispatch.

Washington, July 18.—German factories which have been forced by the war to shut down are forming trade associations unique in the economic history of the world. Consular dispatches received here tell of the organization of the "Association of Closed-down Cotton Weaving Factories" with headquarters in Dresden which is being joined by many important concerns.

The Association hopes to obtain for the idle corporations a representation proportionate to their number and importance in the war economic organs, so that questions affecting their whole existence shall not be decided exclusively under the influence of the going concerns.

Government officials said the reply of the German government would be one of the most interesting economic phases of the war, as indicating what plans are in the making for safe guarding industry at large for the rehabilitation of the country after war.

THE SOFT WATER PLANT

"Collar Mileage"

We don't suppose there are many men who figure out how many trips their Collars make to the Laundry. If collars were sold on an adjustment plan as are automobile tires they probably would keep tab on the "collar mileage." Every man should get the maximum wear from his collars, and he should know if his Laundry is "rough on collars" or the opposite. We invite a test. Will you make it? Get "more trips per collar."

The Rothrock Laundry

MRS. M. A. COFFMAN : : : : BOTH PHONES

CONDITION OF WEATHER AND CROPS

Washington, July 18.—Rains have fallen in the last 24 hours over most of the region south and west of the Missouri River; also in the middle and upper Ohio Valley and northward over the Lake Region. The amounts were moderate to heavy over much of the western area and central portion of the eastern area, ranging from one to over two inches at several stations in southern Nebraska and western Kansas and approximately an inch near central Indiana-Ohio boundary. The temperature is generally lower over the Plains States and eastward but is now rising over the far Northwest.

Columbus, O., July 18.—The weather was not favorable for growing crops but was quite favorable for the harvesting and threshing of grain. The wheat harvest is practically finished except in some of the most northern counties and thrashing is in progress over all western, most central and some northwestern sections and will

become very general in the next ten days. The yield is reported as good though not up to expectation in some places. Oats continue in good to excellent condition, harvesting has been completed in Preble and Shelby counties and will be general by next week over most western counties. Corn is at a standstill on account of the cool nights and insufficiency of moisture. The tassel is appearing rather low and imperfectly developed in some sections. This crop is in a rather critical condition. Other growing crops, such as tobacco, late potatoes, pastures, gardens, etc., need rain. Early potatoes are practically a failure. Barley has been cut in Wood county.

WILLIAM H. ALEXANDER,
Meteorologist.

WHIRLWIND DROPS FROM A CLEAR SKY

A very peculiar wind phenomenon occurred on the Mrs. Maggie Hoy Hedge farm in Bloom township, Fairfield county, two miles east of Marcy, Tuesday, when a whirlwind from a clear sky played pranks there about in a rough and tumble manner. Suddenly a whirlwind swooped down to earth, tore the roof from the barn, scattered the sheaves of wheat in the field adjacent the barn, upset and disarranged a wheat tick only partly built, and passed to the border of a cornfield nearby and tore the blades from the stalks. Roy Hickie as tenant occupies the farm.—Pickaway County News.

BIG CROWD HEARS SECOND CONCERT

The second band concert of the season was given Wednesday night by the Whelpley Band, and the attendance was exceptionally large, automobiles packing the streets for nearly a square in each direction, while a large throng of people congregated about the band stand erected on the Fayette-Court street intersection.

As usual the big audience enjoyed the music from 8:00 o'clock until nearly 9:30.

Persons back some distance were greatly annoyed by motors being started in the midst of a selection and drowning out the remainder of the music. A request has been made that persons in automobiles desist from starting their motors until a number is finished in future concerts.

The concert came to a close with "The Star Spangled Banner" and during the playing of which the number of men who kept their hats on was surprisingly large.

It has been suggested that in the future when the national air is being played a request be made for the removal of all hats so that those who have heretofore failed to show due reverence will have no reason for not removing their hats during the playing of the selection.

BIG ATTRACTION AT THE COLONIAL

The Colonial is presenting an altogether different attraction for three days this week in "The Whip"—a film thriller, with breath-taking dare-deviltry and heroism, intrigue and love all revolving in a superb setting out of the ordinary.

"The Whip" presents a screen version of a play that set London agog for three years.

Staged at the magnificent country place of a New York millionaire, presenting wonderful hunting scenes, thrilling races, a train wreck that is a marvel and an automobile accident that terminates one of the most exciting rides ever produced in a photograph.

The play pulses with vivid life and color and is spectacular to the last degree.

The climax of the futile plotting of the Baron and his partner to keep Diana, the piquant and fascinating daughter of the millionaire, from marrying the man of her choice, is reached at the Saratoga race track, when Diana rides "The Whip" to victory in one of the most sensational scenes ever screened.

"The Whip" will be shown tonight, Friday afternoon and evening.

WAR WORK ACTIVITY

This is the canning season and the Food Conservation department of the Woman's Committee Council of National Defense, is endeavoring to assist with every possible suggestion so that there may be canned fruit for the coming winter and yet conserve sugar supply. This is a very real part of Woman's War Work Activities.

Herbert Hoover has said there will be enough sugar for every body if all will join in helping to conserve the supply. If we are wasteful and do not follow the program of conservation we may expect to go on short ration later.

If you run your household on three pounds per month per person, the grocer won't have to hang up the sign "No Sugar" next fall.

Housewives:—Make this your Motto: "Maximum canning with Minimum sugar."

Taking Care of the Plums

Plums are usually abundant, and can be preserved in a dozen or more ways; but they will sour a lot of sugar, and only skillful planning will take care of this fruit without using up an undue portion of the sugar allotment. It is advisable to use the sweetest varieties of plums and combine corn syrup and sugar in preserving. Here are a few suggestions for saving the plum crop.

Without Sugar

1. Can whole fruit with hot water instead of syrup.
2. Can plum pulp. Heat fruit gradually, add no water, cook to a pulp, boil an hour and can as usual.
3. Make plum butter, omitting the sugar. Follow usual directions.

Sweeten when opened.

4. Bottle plum juice for syrups and desserts.

5. Dry plums. Cover plums with boiling water, let stand 20 minutes, drain and dry in sun or dryer.

6. Make a winter marmalade from the canned plum pulp and sorghum or other syrup.

With Sugar

1. For preserves or desserts combine plums with peaches, apples or pears.

2. Can plums with syrup made of boiling water and usual parts sugar and corn syrup.

3. Make plum preserves, or jam with half-and-half corn syrup and sugar.

4. Serve hot stewed blue plums slightly sweetened for breakfast or dinner. Serve with bacon or fresh pork.

5. Sweeten plum desserts with half and half corn syrup and sugar.

Wanted—Girls at Larri-mer Laundry.

An Excellent Farm of About 192 acres For Sale.

The undersigned will sell at Partition Sale at the Court House in Washington C. H., Ohio, on

Saturday, the 3d Day of August, 1918

at 2:00 o'clock P. M., what is commonly known as the MARY VANCE FARM containing, as shown by New Survey, 192.08 acres, situated at Madison Mills, Fayette county, Ohio.

This is an excellent corn and wheat farm, laying within 1/2 mile of R. R. station and good market; close to school and churches. This farm has a good 8-room house, fair barn, cement walks, good young orchard, is well ditched and fenced and will make a very desirable home in a good neighborhood.

Anyone desiring to view the land call on John Vance at Madison Mills. Terms of Sale—Cash.

FACTORY WILL SHUT DOWN ON AUGUST FIRST

Big Plant of Washington Manu-
facturing Company Employing
100 Men Will Close Until After
the War.

War-time Industry May Be Locat-
ed in Plant Commonly Known
As the Chair Factory

Definite announcement has been
made that the Washington Manu-
facturing Company's big plant in Mill-
wood, commonly known as the "chair
factory" will be closed down entirely
on August 1st, and will not be reop-
ened in the same manufacturing busi-
ness until after the war, although
lease of the plant to some war-time
industry will be made if such an in-
dustry is found.

The plant ordinarily gives employ-
ment to 100 men, and the complete
shut-down of the plant means that
these men must seek other employ-
ment until the plant is reopened af-
ter commercial conditions become
somewhat normal once more after
the Germans have been given the
most complete thrashing of their
lives.

The plant two or three years ago
switched from the manufacture of
chairs to the manufacture of juvenile
and toy furniture, and was going for-
ward by leaps and bounds until the
war came home to America, and
about the same time the executive
head of the plant, Mr. Roy Young,
was forced to go to Asheville, N. C.,
for his health, and will remain away
another year.

The demand for the type of furni-
ture manufacture by the plant was
such that orders could not be filled
as fast as received, and the plant
was one of the largest, if not the
largest of its kind in America, and
its product was much in demand in
the east, as well as in the central
west.

Last year it was impossible to de-
liver on time a vast amount of stock
ready for shipment because of the
congested freight conditions, and as
the embargo continued and still con-
tinues on the non-essentials the
plant could not well operate unless
the manufactured product could be
shipped, so that closing down com-
pletely until after the war was the
only solution. An as soon as ship-
ping conditions permit after the war,
the plant is to be reopened on a
more extensive scale than ever.

It is understood that one or two
war-time concerns already have look-
ed over the plant with a view to lo-
cating here, but so far the plant has
not been leased to any such concern
and so far as known is still open for
lease to some good concern.

The big plant has not been in ac-
tive operation for several months,
and at a recent meeting of the direc-
tors the decision to close it down en-
tirely until after the war, was reach-
ed.

During the past few days the local
citizens have had their attention
drawn to a huge motor truck hauling
logs to the J. W. Willis Lumber Com-
pany's yards in this city, but few real-
ize the extent of the work being done

by the truck as compared with a team
of horses.

The truck, a five-ton one, is owned
by the J. W. Willis Lumber Company
and makes five trips to and from the
Kelley Dixon woods on the Good Hope
pike, each time hauling a load of logs
just twice as large, or even greater,
than that hauled by a team of horses.

A team of horses hauling logs from
the same piece of timber would make
three trips ever 48 hours—one trip
one day and two trips the next. In
other words while a team of horses is
hauling three loads, the motor truck
will haul ten loads, hauling what
would be equivalent to 20 loads of
timber, or 17 team loads more in two
days time than the team can make.

WEDNESDAY GAMES

(American Press)
Chicago, July 18.—The Cubs defeat-
ed the Phillies yesterday 2 to 1 in a
21-inning game. It was a pitcher's
battle between Watson and Tyler,
and a season's record for extra in-
ning games was established. In the
twenty-first Barber, batting for Zel-
der, singled; Watson hit Kilfer and
McCabe, batting for Tyler, beat out
a bunt, filling the bases, with none
out. Flack then delivered his fifth
hit of the game, scoring Barber. Wat-
son allowed 19 hits and Tyler 13.

OH! MY BACK!

The Expression of Many a Kidney
Sufferer in Washington C. H.
A stubborn backache is cause to sus-
pect kidney trouble. When the kid-
neys are inflamed and swollen, stoop-
ing brings a sharp twinge in the small
of the back, that almost takes the
breath away. Doan's Kidney Pills re-
lieve sluggish kidneys—relieve aching
backs. Here's Washington C. H. proof:

Mrs. O. L. Peart, 637 S. North St.,
says: "A number of years ago I had
an attack of kidney trouble. When I
tried to walk up the stairs, I was
taken with a catch in my back and
for a few minutes I couldn't straight-
en. I suffered with intense pains
through my back and sides, for sev-
eral days and my kidneys acting ir-
regularly caused me much annoyance.
A neighbor advised me to use Doan's
Kidney Pills. After I had taken a box,
I was entirely cured and I have never
had any return of the trouble."

Price 60c at all dealers. Don't
simply ask for a kidney remedy—get
Doan's Kidney Pills—the same that
Mrs. Peart had. Fort & Milburn Co.,
Mfgs., Buffalo, N. Y. Advt.
